My Name Is Clement Georges. I consider myself a hard-working and reliable individual. I have a wide platform of skills to offer to the greater good of your company. I have worked in the E-commerce industry for about four years and have highly enjoyed the challenges and the accomplishments achieved in my career. I work well within a team and I'm able to adapt and apply myself accordingly. In the last few months I have studied Frontend Development at Codecademy and I have enjoyed Developing and creating web pages. I would love to pursue my new career as a Front End Developer moving forward.
